

COVID-19 South Africa Dashboard

Last updated at 14:50 24/03/2020

NOTE: We are currently awaiting detailed data from the NICD.

This site serves as a monitoring tool of the development of the Coronavirus in South Africa. This data, in conjunction with global inputs and local parameters, are being used to provide predictions for the spread and impact of the coronavirus in the country. The work is performed by an interdisciplinary team of scientists from [Wits University](#) and [iThemba LABS](#) of the [NRF](#) in collaboration with the data analytics team of [DataConvergence](#).
